Snowflake	dbt Core & Cloud	Python	• SnowPro Advanced Data Engineer • AWS Solutions Architect Associate • SnowPro Core • ITIL Foundation
Data Modeling	Cloud Architecture	CI/CD & DevOps	
EXPERIENCE			EDUCATION
Data Engineer / Consultant Self-employed, Poznań 03.2023 — present Leading a Snowflake/Azure data warehouse engagement end to end. Grew the engineering team from 2 to 6 developers, introducing coding standards and code review that cut new-hire onboarding time. Led the legacy migration, built CI/CD with GitHub Actions, and decoupled ingestion from transformation for easier testing and extension. Snowflake · dbt · Python · Azure · Airflow · GitHub Actions			MSc Computer Science WSB Poznań 2021 — 2023 PgDip Big Data UAM Poznań 2017 — 2018 BSc Mathematics UAM + Erasmus HHU Düsseldorf 2013 — 2016
Data Engineer Netguru, Poznań 03.2022 — 02.2023 Built and maintained data pipelines for marketing analytics in the insurance sector. Drove PoCs, automated a legacy migration, and built feature pipelines for ML Ops. Cut Snowflake compute costs via query and warehouse-sizing optimization; advised on an internal HR analytics platform and ran technical interviews. Snowflake · AWS · Terraform · dbt Core · GitLab CI			LANGUAGES English Fluent German B1/B2 Spanish A2
Data Engineer Capgemini, Poznań 12.2020 — 02.2022 Designed and built a Snowflake data warehouse from scratch, including Python ETL/ELT pipelines on AWS provisioned via CDK. Implemented the RBAC model, owned the infrastructure, and led cost optimization across compute and storage. Snowflake · Python · AWS (Fargate, Lambda, Glue) · CDK			
Data Engineer → Lead Data Engineer Roche Polska, Poznań 11.2018 — 11.2020 Led migration of one of the company's largest warehouses from Teradata to Snowflake on AWS, design through cutover. Built automated scripts to refactor hundreds of Informatica jobs and designed the historical data migration strategy. Snowflake · AWS · Teradata · IPC			
Data Vault / ETL Developer CGI Polska, Poznań 01.2018 — 10.2018 Delivered ETL across 3 concurrent projects: primary developer on a Data Vault warehouse, contributor to a Kimball-style warehouse, and 2nd line support for IPC and SAP BO. SSIS · SQL Server · IPC
